SUMMARY

CSE student and active competitive programmer with a strong track record in algorithmic problem-solving, backend/database skills, and machine learning. Co-founder of an educational platform and experienced in teaching discrete mathematics and multivariable calculus. Passionate about building efficient software solutions, continuous self-improvement, and mentoring juniors in the tech space.

EDUCATION

Degree	Institute	Board/University	CGPA/GPA	Year
B.Sc. in CSE	Mawlana Bhashani Science and Technology University	MBSTU	3.67 (Till 3rd Yr 1st Sem)	2021-2022
HSC	Ghatail Cantonment Public School	Dhaka Board	5.00	2021
SSC	Kalihati R.S. Pilot High School	Dhaka Board	5.00	2019

EXPERIENCE & LEADERSHIP

- FailureOJ (failureoj.com)**
Co-founder & Developer
 - Co-founded and developed an educational platform project dedicated to programming and algorithmic learning.
 - Handled backend logic, integrated competitive programming concepts, and managed database structuring.
 - The Secret Classroom (YouTube Channel)**
Founder & Tutor
 - Conduct comprehensive programming tutorials specifically tailored for junior students and beginners.
 - Teach complex topics including discrete mathematics and multivariable calculus.
 - National High School Programming Contest**
Volunteer
 - Supported event organization and coordination, actively assisting participants during the competitive programming rounds.
 - Rotary Youth Leadership Award**
Leadership Awardee
 - Selected to participate in the prestigious Rotary Youth Leadership Award (RYLA) program.
 - Underwent intensive training in leadership development, ethical decision-making, and community service.
 - Collaborated with young leaders from diverse backgrounds to design and execute community impact initiatives.

- ## PROJECTS
- FailureOJ (failureoj.com)**
Full-Stack Web Development (Team Project)
 - Developed an online judge platform for programming practice and algorithmic learning as a core team member.
 - Collaborated with team members: **Mahmud-Un-Naby** (@Mahmud-Un-Naby) and **Nafis Ahmed** (@Nafis1e18).
 - Contributed to backend development, problem set integration, and database architecture.
 - FoodCampus**
Java Development
 - Designed and developed FoodCampus, a comprehensive campus food management application utilizing Java.
 - Integrated the Gemini API to provide unique, personalized food recommendations dynamically based on the user's BMI and regular dietary habits.
 - Real-Time Asteroid Game**
Graphics Development (C, OpenGL/GLUT)
 - Developed an interactive 2D Asteroid game utilizing C and the GLUT library.
 - Implemented core mechanics including translation, shrinking effects, leveling, dynamic scoring, and high score caching.
 - Integrated environmental interactivity such as pause/restart functionalities and real-time keyboard/mouse input handling.

TECHNICAL SKILLS

- Programming Languages:** C++, Python (Strong), C, SQL (Intermediate), Kotlin, Java, HTML, CSS
 - Technologies & Frameworks:** Machine Learning, Android App Development, OpenGL, GLUT, Oracle, Gemini API
 - Tools & Software:** VS Code, Android Studio, Sublime Text, Code::Blocks, Proteus 8, StarUML, EMU8086
 - Core Concepts:** Data Structures & Algorithms, Binary/Ternary Search, Combinatorics, Modular Arithmetic, Recursion, SQL Joins

CERTIFICATIONS & TRAINING

- Machine Learning Specialization** | *Andrew Ng, Stanford Online*
 - Mobile App Development (Kotlin) EDGE Program** | *EDGE Bangladesh*
 - SQL Intermediate Certificate** | *HackerRank* (hackerrank.com/profile/nirobnafis3)
 - Python Skill Test** | *CodeChef* (codechef.com/users/nafis1e18)
